mini scientist

intel

EVERYBODY KNOWS!

Worksheet

List out the materials you are using.

_____ _____

_____ _____

_____ _____

_____ _____

List some interesting ways plants, animals or humans move.
(Example: Birds wings move up and down where at their joint to their body. This helps them fly!)

_____

_____

_____

Describe how you did the experiment.

_____

_____

_____

Did your experiment turn out as planned?
What changes would you make next time (if any)?

_____

_____

What other joints/movements could you make using this design?
It can be anything, animal joints, fish movements, flowers, or trees.

_____

_____

What jobs need you to understand how the body works?
List some....It isn't just doctors!

_____

_____
